OPTIONS & ACCESSORIES

* SIMPLY ROLL TRACK-O UNDERNEATH THE ACCESSORY FOR INSTALLATION

Lifting device
(steel)

* Waste container
(polyethylene)

Forklift lifting device
Allows lifting of waste container
(aluminum)

* Equipment pallet
Ex.: generator, welding machine, etc.
(aluminum)

* Concrete container
(aluminum)

* Asphalt container
(stainless steel)

* Mini container
(metal or plastic)

Cabinet loading device
(aluminum)

Drum loading device
(aluminum)

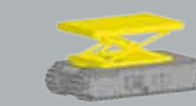

Portable jib crane
cap.: 500 lb
(aluminum)

Jib crane
cap.: 1000 lb
Various custom-made models
(steel)

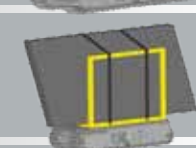

Scissor lift table
cap.: 1000 lb / 24 in. run
Various custom-made models
(steel)

Reel support
(steel)

Panel support
(steel)

EZ-Jack
cap.: 10 000 lb
Lifting cylinders
for confined
spaces

Forklift attachment
(steel)

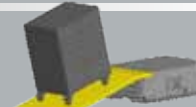

Suction hose attachment
(steel)

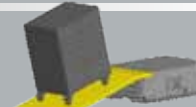

Elongated arm
(steel)

Aluminum smelters protection (300 Gauss and more)

Loading platform
(aluminum)

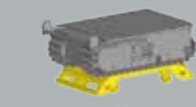

Three-sided box
(aluminum)

Quick-fastening kit
(E-Track)
Front-rear and/or sides
(steel)

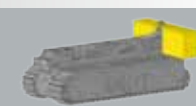

Moving trolley
(aluminum)

Winch support (capstan)

Additional battery set

Accessories electric
quick connect

Safety kit
Lights, alarms

*Large and efficient,
the assembly plant has
versatile spaces and
stimulates collaboration.
Quality control is
applied to operations,
on an ongoing basis.*

*The systematic integration of
advanced technologies is
part of a process of sustainable
development and reducing
our environmental footprint.*

INNOVATE:

OUR PURPOSE.

Every member of the Movex Innovation team, developer, engineer, assembly technician, customer service representative, etc., is driven by the conviction that significantly increase the productivity of our customers, by developing equipment that maximize the usability of their operations and the safety of their workers.

IN CLOSE COLLABORATION WITH CUSTOMER, OUR TEAM WORK CONTINUOUSLY TO DEVELOP INNOVATIVE SOLUTIONS, ALWAYS SIMPLER AND MORE EFFECTIVE, ON THE BASIS OF ELECTRIC VEHICLES.
